

PF60

IGBT inverter-controlled Air Plasma Cutting System

Key features

- Excellent cutting quality.
- Easy-to-use cutting torch.
- User-friendly features ideal for on-site operation.
- Greater safety features.
- Ideal for plates from 0.1-35mm.
- Suitable for various materials including MS, Galvanized Steel, SS, Brass and Copper.
- Shock-proof and dust-proof sheet metal casing.
- Compact and lightweight design.

Technical specifications

	Units	PF60
INPUT		
Power source	-	YP-060PF1
Phase	-	1-3ph
Rated input (1ph)	KVA / KW	11.6 / 8.4
Rated input (3ph)	KVA / KW	15.8 / 13.7
OUTPUT		
Output current (1ph)	Amps	40
Output current (3ph)	Amps	60
Air regulator	-	Built-in
